Re: United States v. Anthony Jordan, et al.  
Case No. S4-4:15 CR 404 HEA (NAB)

Dear Messrs. Rea, Reilly and the CRC:

As a follow-up to our in-person meeting with the Committee on January 22, 2018, please be advised that Mr. Jordan underwent an MRI scan at Barnes-Jewish Hospital in St. Louis, Missouri.

[REDACTED]  
[REDACTED] A CD of the scan has been forwarded to Dr. Erin Bigler, Ph.D. for his analysis and consideration. Dr. Bigler is in the process of preparing a report outlining the significance of the MRI results. We anticipate receiving his report within the next week to ten days.

In addition to the MRI scan, Mr. Jordan underwent neuropsychological testing administered by Dr. Galit Askenazi, Ph.D. Dr. Askenazi's testing is not complete. [REDACTED]

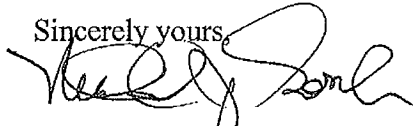

[REDACTED]  
[REDACTED] We will share with you Dr. Bigler's findings and conclusions upon our receipt of the same along with additional information in support of our position that Mr. Jordan's case should not be authorized for the death penalty.

Please contact me if you have any questions or concerns, or wish to discuss this matter further.
